PRIMARY EXAMINER

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art of reference, including that applied in the previous office action, is drawn to a process for the removal of calcium sulfate scale. It is seen through the present amendment and the applicant's arguments that the presently claimed invention is drawn toward a method of purifying a low-grade source of calcium sulfate. Therefore, it is noted by the examiner that this invention in no way relates to the removal or treatment of calcium sulfate scale. Prior art neither teaches nor suggests the use of the claimed process for purifying calcium sulfate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
